THE STORY OF A HERO.

The Milwaukee Sunday Telegraph prints a very interesting sketch of the Hon. Ernst G. Timme, the present secretary of state and candidate for re-election. Reading over the life of such a man makes one think of the most absorbing romance, and yet the picture is not overdrawn. Captain Timme came to this country from Germany 36 years ago with his father and mother, and was then five years old. There are some bright and interesting facts connected with his early life:

he was recommended by a schoolmaster as a student never before known on such an occasion. For many years he has performed the duties of secretary of state, and in a manner so complete that there has been no man, from any party, in any part of the state, to find a single fault, or pick a single line.

The conclusion of the story of the interesting life of Captain Timme is as follows: The other evening I heard a democratic editor say that Captain Ernst G. Timme is the most popular man in the state. There certainly are none more popular and worthy. People admire him for his true manhood, more for his manly and sturdy honesty; for the gallant fight he has made to make his way in life; for his patriotism. He is a representative man; a representative soldier; a representative patriot; a representative German American citizen, and a model official.

At the commencement of business hours Monday Chicago elevators contained 8,879,924 bushels of wheat, 4,702,816 bushels of corn, 1,183,012 bushels of oats, 164,872 bushels of rye and 731,611 bushels of barley, making a grand total of 15,062,265 bushels, against 15,543,380 bushels a week ago and 15,589,392 bushels at this period last year.

KNIGHTS NEGOTIATING.

PROSPECTS OF A COMPROMISE OF THE STOCK YARDS STRIKE.

Eight Hours' Work for Nine Hours' Pay. The Possible Agreement—The International Convention Striking a Nail in the Revision of the Constitution—Hankinson to Go to Work.

Chicago, Oct. 12.—Indications point to a speedy settlement of the great strike at the stock yards, and it is thought likely that the men will resume work in nine hours for eight hours' pay. Messrs. Doster and Barry, the committee from the Knights of Labor, who are negotiating with the stock yards, are reported to have been successful in their efforts. They stated that they had secured a compromise of the strike, and that the men would resume work in nine hours for eight hours' pay. The compromise would be a compromise of the strike, and the men would resume work in nine hours for eight hours' pay. The compromise would be a compromise of the strike, and the men would resume work in nine hours for eight hours' pay.

THE TUG OF WAR.

Began in the Richmond Convention Over Revision of the Constitution.

Richmond, Va., Oct. 12.—Work upon the revision of the constitution of the Knights of Labor organization was begun at the session of the convention this morning. This is the most important business before the body, with the exception of the election of officers, and will involve the question relating to consolidation of the order with the Knights of Labor, and the question of the revision of the constitution. The committee appointed at the Cleveland convention to consider the revision of the constitution reported this morning. Copies of the report were placed in the hands of each delegate, and the discussion began, but no action was taken. The debate was very lively at times, and bitter personalities were indulged in, so much so that a controversy was renewed at one of the hotels in the afternoon and came near resulting in an encounter between delegates. Most of the delegates have returned to their homes, and the delegates are holding meetings to agree upon what shall be done with the report, but no conclusions have been reached so far.

Convict Labor Must Go.

SPRINGFIELD, Oct. 12.—The state board of labor statistics Tuesday issued advanced chapters of its fourth biennial report to the governor. These chapters treat exclusively of the convict labor question, and disclose the fact that contractors are very backward about taking for convict labor advertisements having been published for sale, and no proposals have been received, showing that the agitation on the subject is having a very appreciable effect. The report says that in the whole United States there are but 14,000 persons at work under the system. In conclusion, the board recommends the abolition of the convict labor system and denounces it as a bar to progressive, scientific treatment of the criminal classes.

End of the Drunkenness Strife.

Buffalo, N. Y., Oct. 12.—The drunkenness strife on the New York, Pennsylvania & Ohio road ended at 10 o'clock Tuesday night, partly in favor of the union. Superintendent Stuber has granted the demands for overtime pay, and the wages of \$17.50 per day will remain unchanged.

New Way to Fight a Strike.

Detroit, Mich., Oct. 12.—Detroit has a large German population, and it is reported that a strike is being organized among the brewers. The strike is being organized among the brewers, and it is reported that a strike is being organized among the brewers.

Disunion and Sons at Work Again.

Philadelphia, Oct. 12.—The attention of the board of the strikers at Disunion & Sons, Pa., has been attracted by the proposition of the men to settle the dispute by means of an investigation of the wage lists paid to other men working in the same industry. The strikers are reported to have returned to work, and the dispute is being settled.

The Kokomo Case Well.

Kokomo, Ind., Oct. 12.—The Kokomo natural gas well continues to increase in volume, and is the all-absorbing topic of conversation in social circles and on the streets. The well is reported to be producing gas at a rate of 100,000 cubic feet per day.

SOME BUSINESS PRESENTED.

Reports on Important Matters in the Episcopal Convention.

Chicago, Oct. 12.—The house of delegates of the Episcopal church held its sixth day's session Tuesday. The committee on canon law presented a report authorizing the house of delegates to take action on the proposed revision of the constitution of the church. The report was received with favor, and the house of delegates agreed to take action on the proposed revision of the constitution of the church.

Report of the Joint Committee on the Spiritual Care of Immigrants.

A report of the joint committee on the spiritual care of immigrants was presented and adopted. It recommended that a committee of both houses be appointed to consult with the authorities of the churches of England, Scotland and Ireland and the Church of England in Canada for joint action on the spiritual care of immigrants. A unanimous report of the joint committee on marriage and divorce was received. The report proposed a new canon providing that no marriage of any person under 18 years shall be solemnized without the consent of the parents or guardian, or of the court.

GREAT GALE AT GALVESTON.

The Sea Rolling Two or Three Squares into the City.

CHICAGO, Oct. 12.—The following telegram has been received from Galveston: Galveston, Tex., Oct. 12.—The West Indian hurricane which was reported as entering the Gulf of Mexico on Saturday night has reached Galveston. A terrific gale is blowing from the north, and the water on the bay side of the city is washing over the docks. On the gulf side the water is rolling two or three squares into the city against the levee. A great many of the houses are being blown down, and the water is doing much damage to the property. The gale is still blowing with great force, and it is probable that the telegraphic communication with the mainland will be cut off. The gale is still blowing with great force, and it is probable that the telegraphic communication with the mainland will be cut off.

A TOO-PATRIOTIC CAPTAIN.

He Halted the Stars and Stripes When He Shouldn't.

WASHINGTON, Oct. 12.—The reported halting of the American flag on the American schooner Marian Grimes by the captain of the Canadian cruiser Terror, while the schooner was in custody of Canadian officers, is corroborated, and the state department officials intimate that the Yankee captain was too "fresh," as he had no right to fly the flag while his schooner was in possession of the Canadian government. When the British sailing vessel Corcoran seized the first thing landed down the British flag. Department officials say such conduct will only complicate the efforts now making to settle the fisheries question.

The Race Course.

CINCINNATI, Oct. 12.—The 1 mile race at Landon race track Tuesday was won by Washington in 1:45; the 3/4 mile by Rose in 1:43; the 1/2 mile by Porter in 1:30; the 1/4 mile by Gray in 1:21.

Fire Devastation at Jersey City.

New York, Oct. 12.—The Ames Rolling Mill & Steel Works factory near Jersey City was burned Tuesday night. The fire was caused by the upsetting of a lamp by the engineer of the Ames mills, as he was oiling the engine. The buildings were the Standard Wood Turning factory, loss \$100,000; Dodge's drug store, \$25,000; Goodrich's tailor works, \$25,000; Ames rolling-mills, \$55,000. The losses on several small buildings will make the total, \$240,000.

Convicts Attempt to Get Away.

Braintree, Mass., Oct. 12.—A riot occurred among the prisoners in the district reformatory of the county house Tuesday. The prisoners made a rush and overpowered the keepers, but were unable to find the keys. A force of police, who were hastily summoned, succeeded in putting down the prisoners. Keepers were badly injured. A general amnesty had been planned and an opportunity was seized when two of the keepers were absent to make the attempt. All the prisoners are now under control.

Free Trade.

The reduction of internal revenue and the taking off of revenue stamps from Proprietary Medicines, no doubt has largely benefited the consumers, as well as relieving the burden of home manufacturers. Especially is this the case with Green's August Flower and Beechey's German Syrup, as the reduction of thirty-six cents per dozen, has been added to increase the size of the bottles containing these remedies, thereby giving one-fifth more medicine in the 75 cent size. The August Flower for Dyspepsia and liver complaint, and the German Syrup for cough and lung troubles, have perhaps the largest sale of any medicines in the world. The advantage of increased size of the bottles will be greatly appreciated by the sick and afflicted, in every town and village in civilized countries. Sample bottles 10 cents remain the same size.

And reliable Medicines are the best to depend upon.

Gen. Miller Report Very Vague.

WASHINGTON, Oct. 12.—A prominent official, who has read Gen. Miles report on the capture of Geratino, is authority for the statement that no person after reading it could tell what were the circumstances of the capture or surrender of Geratino, or whether there were or not terms and conditions. The report is said to be vague and unsatisfactory on points that are so essential that the authorities are unable to act, and unwilling to authorize a publication until more is known.

Believed by a Grip Car.

Chicago, Oct. 12.—Editors Macquie, an employee of the City Railway company, had his head torn from his body by a grip car Tuesday. It was in a man-hole under the track, and put out his head just as the car came along. The gripman was arrested.

IT IS WONDERFUL.

how easily rheumatism begins, and how insidiously it grows in the system, until one is startled to find himself in bed, in either the acute or chronic form. It learns the fearful tenacity of its grip and the utter powerlessness of the ordinary remedies to give relief.

Probably no disease have physicians given more study and more time has been devoted to its cure than this terrible scourge. It is a question that Atholophors is the only reliable remedy, and that it will do all that is claimed for it.

East Saginaw, Mich.

About four weeks ago I was taken with a severe attack of rheumatism. My feet were so swollen that I could not wear my boots; in fact, I could not hold them on, and got very little sleep at night, as I suffered intense pain whether I sat up or laid down. I went out and bought a pair of crutches to enable me to get around. After trying them, when on my way home I stopped in at W. B. Moore's drug store, and noticing Atholophors for sale I decided to try a bottle. After taking half a bottle I had my crutches aside, only using them the one time—on my way home. The swelling is all reduced, and I have now my boots with perfect ease. I have not had any pain since. I would not take \$20 for the balance of the bottle if I could not get more. Any one suffering with rheumatism need not suffer any longer if they will take Atholophors. W. B. MOORE, East Saginaw, Mich.

Every druggist should keep Atholophors and Atholophors Pills, but where they cannot be bought of the druggist the Atholophors Co., 113 Wall St., New York, will take Atholophors. W. B. MOORE, East Saginaw, Mich.

For liver and kidney diseases, dyspepsia, indigestion, weakness, nervous debility, dizziness, headache, rheumatism, hemorrhoids, impure blood, etc., Atholophors Pills are unequaled. 75c per bottle.

Of the public patronage is what we are all after, and with the majority of advertisers—"Any way to get there," is the only rule. "Goods below cost," "Unheard of prices," "Under selling everybody" Less than half price," are a few of the hackneyed expressions so freely used as "bait" for the unwary.
